Subject: Coronavirus – Risk analysis / company policy / news

Dear valued Business Partner,

The current situation in respect of the spread of the Coronavirus and its impact to people and business is in the media day by day.

We at MST are working with the situation very seriously to keep negative impact away from us and our business partners as good as possible.

Today we can confirm to our best knowledge:

- For suppliers in meanwhile affected areas we already established second sources outside
- Material shortages may currently only result from transport delays
- Financial situation is sound and under control

Negative impacts might only be created by too many shut-down / order-cancellation / order-freeze actions at customers end forcing us to reduce/run down our production capacities.

We continue to monitor the situation and its possible effect on us very closely. Be assured, that we would contact you pro-actively in case of a detected impact on our business.

Best regards

Your MST-Team
